Bleed Area: 11.16” x 8.66”
Extend your background to fill the full bleed area.

Safe Area: 10.50” x 8.00”
Keep all the important bits of your design inside this area.

Fold Lines
This is where your product will be folded.

Design Advice

We cut your brochure just inside from the bleed area. However, the cut line can sometimes vary slightly from this position.

To make sure all of the main features of your design don't get cut off, keep them inside the safe area.

To make sure you don't get any unwanted white borders, extend the background/edges of your design to the bleed area.

Design Requirements:

→ Artwork should be created in CMYK
→ Raster images should be at least 300DPI
→ Delete all non Artwork layers and save file as a PDF/x-1a
→ The outside and inside artwork files should be uploaded individually. Please save each side separately.
